

To all members,

Welcome to the Mactaquac Golf Course. My name is Claude LeBlanc and very fortunate to be the New Head Golf Professional at this beautiful facility. I've been involved in the golf industry for more then 25 years now and loving it! Teaching golf has always been a passion and I hope to help members and guests improve their golf game over the summer. I will be offering private golf lessons and group lessons for everyone.

With my background in technology, I will be helping out in creating a new web site for the course, e-mail marketing and more... A new Facebook page has been created and I will be posting weekly activity from the course. Videos will be created all summer to better inform members and guests.

After meeting many employees from the course, I must say I was very impressed with their commitment to quality service at your facility. It will be a pleasure working with these individuals during the summer.

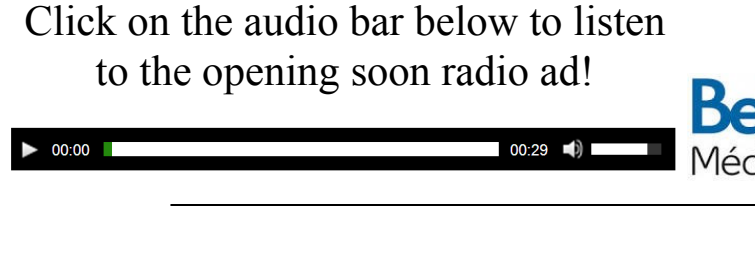

I hope you will have the chance to come and meet our friendly staff and anxious to meet all of you on the course.
